Imagine a slip-resistant surface that not only enhances the look of your playground, splash pad, pool deck, patio, garage or driveway but also provides comfort, resilience and style!

With over 35 years of worldwide experience installing quality rubber surfaces, Rubaroc will exceed your every expectation.

Rubaroc combines proprietary high tech polymer resins with high quality color-fast rubber granules. It is poured in place and hand troweled to create a resilient, non-skid surface that is virtually indestructible.

Commonly referred to as “poured-in-place”, Rubaroc is hand troweled over imperfections creating a seamless surface that will last for years. Rubaroc is anti-fungal, anti-bacterial and easy to maintain.

Rubaroc is the ideal surfacing solution for the home, workplace & recreational facility.

**SURFACING WORLDWIDE SINCE 1983!**

All of the different applications by Rubaroc will provide you with many benefits. We have developed the Rubaroc system over many years and we can be confident it will surpass all your expectations.
